**Hyperbaric Services of the Palm Beaches, LLC.
Only free-standing facility in the country to
Receive prestigious National Accreditation for
Quality and Safety**

DELRAY BEACH, FL--- Hyperbaric Services of the Palm Beaches, LLC (HSOPB) announces they are the only free-standing facility in the country to receive accreditation from JCAHO (Joint Commission of Accreditation of Healthcare Organizations), an independent, not-for-profit organization which is the nation's preeminent standards setting and accrediting body in healthcare. A voluntary accreditation process, Hyperbaric Services of the Palm Beaches elected to participate to measure their state-of-the-art facility against the same standards held by hospital hyperbaric providers. Achieving accreditation affirms Hyperbaric Services of the Palm Beaches substantially complies with JCAHO standards and continually makes a commitment to improve the care and services it provides. This assignation signifies the highest quality of hyperbaric medical care and most of the nation's prestigious medical institutions are JCAHO approved.

Located at 5130 Linton Boulevard in Palm Court Plaza on the grounds of the Delray Medical Center, the newly completed 2,600 square-foot medical office space features (4) new Sechrist monoplace chambers. Sechrist Industries, Inc, the leading manufacturer of hyperbaric oxygen chambers for over thirty years, has an established reputation as the worldwide leader in quality and safety. All chambers are installed and regularly maintained by the manufacturer in accordance with highest standards.

Safety is a primary concern at the facility and all treatments are administered by experienced hyperbaric trained technicians and supervised by an on-site hyperbaric trained physician. Stringent protocols have been established and are meticulously followed prior to each treatment to eliminate any risk to the safety of the patient while inside the chamber.

Specializing in Wound Healing and Neurological conditions, the facility is open Monday through Friday from 8:30 – 4:30 p.m. For more information, please call or visit our website at www.PalmBeachHyperbaric.com
